

Take Hood's Sarsaparilla

The One Spring Medicine

Possesses Medicinal Merit Peculiar to Itself. Cures Spring Humors, Loss of Appetite, and all other troubles of the blood, stomach, liver and kidneys.

Sarsapilla are Hood's Sarsaparilla in chocolate tablets, prepared from Hood's Sarsaparilla itself by a process of evaporation and distillation and have identically the same curative properties as the liquid form. 100 Does One Dollar. Sold by druggists or sent promptly by mail. C. I. HOOD CO., Lowell, Mass.

YOUNG DOESN'T NEED CURVES.

Harry Blake Says Old Cy's Speed is Good Enough to Win.

Harry Blake, the former Cleveland outfielder, says that "Cy" Young seldom uses a curve ball. He claims that four or five, anyway, are the most young uses in a game. "No, sir; old Cy didn't have to throw a curve," says Blake. "His control was so perfect and his knowledge of batters so keen that he rarely called to his aid any shots and blunts, and this in a large measure explains why the veteran is still in the game. Had he been throwing curves all those years he would long ago have been back on his farm listening to the song of the reaper and the hum of the threshing machine."

"I caught a game for Young once at St. Louis," said he. "It was then I came to a full realization of the old fellow's cunning. Talk about speed—why, every time I saw the ball leave Cy's big paw I took a firm grip on the sod near the home plate, stuck out my hands, shut my eyes and breathed a little prayer for the batter to hit the ball. If he missed it I knew my chances for taking a very quick and unobtrusive sitting position were excellent. The ball came with speed of a rifle shot, but, strange to say, just where Cy had told me it would land. He signaled just the kind of a ball was coming, and he knew, because he knew the kind of a ball the batter couldn't hit."

"I got along fairly well for five innings, caught the only two players who tried to steal second. This gave me the confidence I needed and I yelled to Cy: 'Say, you big rail splitter, where's your steam?' I thought you could shoot 'em. Young called me to the pitcher's box and said: 'You little saved off excuse of a catcher. I have had mercy on you because you're a kid and couldn't catch a blind robin. Now you go back behind the plate and I'll make you think there is a rattling gun in center of the diamond.' Maybe I wasn't sorry that I spoke. If Cy threw them swift before he certainly burned up the air for the last four innings. My hands looked like 10-pound hams when I discarded the mask and chest protector. I turned to Tebbe and said: 'Pat, you aimed me as an outfielder and the next time you ask me to catch that rail splitter get somebody else or I'll go back to Portsmouth—and that's the last time I ever caught Cy Young.'—Springfield Republican.

Kinetic Energy

Kinetic is a good word. It means "power to make things go." A fat bank account, a rock on the edge of a hill, a barrel of gunpowder, and SCOTT'S EMULSION all contain "kinetic energy," so the professor tells us.

Power is stored up in

Scott's Emulsion

This force let loose in the system of the consumptive gives him the strength to take on new flesh. It is a powerful flesh-producer.

VALUATION OF RAILROADS

Proposition Before the Senate Committee

COMMERCE COMMISSION

Asks for \$3,000,000—Action Not Required by Aldrich Measure—Senator La Follette Deeply Interested in the Suggestion.

Washington, March 28.—Senator La Follette is watching like a hawk the Senate committee on interstate commerce. This committee is just in receipt of a letter from the interstate commerce commission advocating an appropriation of \$3,000,000 with which to make a thorough physical valuation of the railroad properties of the country. The commission estimates that this can be made in three years; and it especially suggests that the examination, if authorized, shall not be based upon considerations of what would be "fair and reasonable" within the technical meaning of those words as they are found in existing law. The commission desires an exact valuation of physical properties, leaving values relative to purchase, good will and other appearances of a going concern to be determined later as occasion may arise.

It has been erroneously understood that, in reply to a query of Senator Elkins, the commission has advised against any investigation to ascertain physical values. The facts appear to be that the commission replying to Senator Elkins, gives its opinion that such an investigation would be unnecessary for the purposes of the Aldrich currency bill, the commission holding that so few railroad bonds would be selected as a basis for circulation, compared with the great number, that there would be no real question as to their sufficient values for this purpose.

Senator La Follette has announced that he will give the commerce committee of Senate reasonable time in which to make a valuation of the proposition of the commission, at the end of which he will move to discharge the committee, thus bringing the question before the Senate for a vote.

"OUR NAVY THE MOST EFFICIENT Afloat."

Paul Morton Says It Is Easy for "Muck-rakers and Others to Criticize."

San Francisco, Cal., March 28.—Paul Morton, president of the Equitable Life Assurance society and ex-secretary of the navy, came to the defense of the United States fleet at the Fairmont hotel, the occasion being a banquet tendered to him by the San Francisco Chamber of Commerce.

"It is much easier," said he, "for muck-rakers and others to criticize than it is to construct or command a fleet. It is so easy to attract attention by finding fault and so difficult by making good. 'Notwithstanding all of the criticism, I am thoroughly convinced that the American navy, ship for ship, man for man, and gun for gun, is the most efficient fighting machine that floats; and while I deprecate to the fullest extent war with any country, I am sure that we are not to come, our navy would acquit itself in a way that would thrill the hearts of every patriotic American.'"

"No man can come in close contact with the American navy without having the greatest admiration for its ships, its officers and its men."

HELD FOR \$50,000 LARCENY.

Three Persons Are Arrested in Worcester, Mass.

Worcester, Mass., March 28.—Benjamin Priest, a confidential agent for Mott Bros., manufacturers of wooden goods, dye stuffs and raw materials, used in the woolen trade, was brought here yesterday from Providence, where he was arrested yesterday morning, in answer to a charge of larceny from his employers. Priest was arrested on an indictment returned by the Worcester county grand jury last fall. Samuel Priest, an uncle, and Chas. Schochet, father-in-law of the prisoner, who came up on the train with Priest and the officers, ostensibly for the purpose of furnishing bail for the arrested man, were themselves arrested upon their arrival in Worcester. In their cases the arrests were on the same charge as that against Benjamin Priest and were an indictment returned by the same grand jury. The Mott Bros. allege that through Priest's operations their firm has lost between \$50,000 and \$75,000. It is now claimed that Priest, acting as agent for Mott Bros., sold goods to fictitious persons, then transferred the goods to a third person, and then sold the same goods back to Mott Bros. again.

HUMMEL IN LIVERPOOL SHOWS NO SIGN OF ILLNESS.

Lands Cheerful and Laughing, But Objects to Reporters.

Liverpool, March 28.—Abraham Hummel, the former New York lawyer, who was released from prison on March 16, was a passenger on the Cunard liner Lusitania, which arrived yesterday. He was cheerful and laughing when he landed and exchanged greetings with friends. He showed no signs of being ill.

Hummel received as much attention from the reporters and the photographers as did the Duke of the Abruzzi, but he did not take it so pleasantly.

HAYTIAN REFUGEES ARE TAKEN TO KINGSTON.

United States Gunboat Paducah Arrives at Port-au-Prince.

Port-au-Prince, March 28.—The German cruiser Bremen left here yesterday for Kingston, Jamaica, carrying all the revolutionary refugees who had taken asylum at the French and German legations. They number in all seventy-five men.

The United States gunboat Paducah arrived here yesterday morning.

Peri-an-Prince, March 28.—The German cruiser Bremen left here yesterday for Kingston, Jamaica, carrying all the revolutionary refugees who had taken asylum at the French and German legations. They number in all seventy-five men.

FEET AND HANDS CRIPPLED

With Rheumatism, I Could not Walk for Six Months, and I Could Get No Relief until Cured by

Hundreds of people who know of my suffering give Minard's Liniment the praise. Mrs. E. R. Williams, 62 Sawyer St., Boston, Antiseptic, Healing, Stainless.

SEATTLE SITE FOR BUDDHIST CHURCH.

It Will Be the First One in This Country, Work on It to Begin Soon.

Seattle, Wash., March 28.—Within the next fortnight work will be begun on what will be the only Buddhist church in the United States owned by a Buddhist organization, the building standing on ground also owned by the society. The ground has been purchased at a cost of \$20,000 and the plans have been drawn for a \$12,000 edifice.

G. Nakai, the pastor of the Seattle Japanese society, is now in Japan, and when he returns he will bring with him an image of Buddha, for which a place has been reserved in the chapel, and which will be used in the services of the society. Practically all of the adherents of this Buddhist society are Japanese, but it also includes those of other nationalities, the president of the society being a woman of Scandinavian extraction, Selma Anderson.

TWO DEAD, ONE DYING IN HEAD-ON CRASH ON THE ERIE.

Mistake in Orders Causes Express and Freight to Meet.

Rochester, N. Y., March 28.—Two men were killed, one fatally and four slightly injured in a head-on collision between Erie train No. 13, known as the Wells-Fargo Express, and an extra freight at Belvidere, near Hornell, yesterday morning.

A mistake in orders led the express to meet the freight on a down grade. Both engines and fifteen cars were piled up and some of the men were hurled beneath the wreckage.

The dead are: P. L. Helmer, engineer, Hornell; and James Carson, fireman, Andover. H. Mages, brakeman, was fatally injured. John Field, conductor, and three express messengers were among the others hurt.

When the wife of Engineer Helmer was notified of her husband's death she collapsed, and it is feared that she will die from the shock.

The BUICK AUTOMOBILES

For 1908

Every past season the Buick has demonstrated its fitness and adaptability for Vermont roads and especially for Vermont hills.

It is the greatest hill climber of them all.

The makers of the Buick have prepared to supply all demands. It has been impossible to fill all orders in past seasons. With increased factory facilities it is believed that all demands will be quickly filled.

But it is a good idea to place your order early. This will insure against disappointment.

HEPBURN LEADS REVOLT

He Seeks Aid of the House Democrats

WOULD TAKE HIS MEASURE

From Judiciary Committee—This and Other Important Bills Neglected—Serious Blow at Speaker's Prestige Is Possible.

Washington, March 28.—Representative William P. Hepburn's wrath over the reference of the administration bill to amend the Sherman law to the judiciary committee instead of to his own committee on interstate and foreign commerce has taken the form of action. He has approached John Sharp Williams, and Champ Clark, the Democratic leaders, with a proposition to secure a vote in the House to discharge the committee from consideration of the bill. After some canvassing they have agreed, and if enough administration Republicans can be rallied, the scheme will be put through. The bill was referred to the committee on judiciary and the chairman referred it to a sub-committee of which Representative Littlefield is the chairman. It has been confidently asserted outside the committee that it would be allowed to slumber through the session. Not only this bill, but the anti-injunction bill, employers' liability and liquor measures, with the question of the constitutionality of the Appalachian forest reserve bill, are among the treasures of the committee, and its skillful inactivity has aroused the suspicion of the House.

A sensational feature of the Hepburn plan is that its success would deal a dangerous blow at the prestige of the Speaker, which some members say might cause him some trouble in Illinois. Ascher C. Hinds, the parliamentary adviser of the speaker, declared the reference of the bill to the judiciary committee as proper and in line with precedent.

Dickema Heads Off Williams.

Minority Leader Williams of Mississippi in the House yesterday gave notice of his intention to introduce a resolution "to ask the committee on the judiciary to examine whether or not there has been on the part of the executive, a breach of the privileges of the House of Representatives."

Mr. Williams said that his resolution would be based on a news item appearing yesterday in the Washington Post, bearing the heading, "Roosevelt Rakes Dickema." The story stated that upon the occasion of a visit Thursday to the White House Mr. Dickema of Michigan, who was a member of the sub-committee which investigated the charges against Judge Wilkey, had been taken to task by the president for having censured the judge. Mr. Dickema, one of the principals of the conference, got the floor to explain just what happened. He completely absolved the president of any intolerance.

AMENDING ALDRICH BILL.

Several Changes Are Considered by the Senate.

Washington, March 28.—When the currency bill was taken up at 12:30 o'clock yesterday, the Senate had pending about twenty-five printed amendments to the measure to be disposed of with the possibility of other amendments being offered. Senator Aldrich insisted that during the time routine business was being transacted the Senate should not be diverted to the consideration of any matter not strictly in order.

The first matter of importance to be taken up in connection with the bill was the amendment of Senator Johnston of Alabama, requiring that four-fifths of the fifty per cent reserve of banks shall be kept in the vaults of banks outside of reserve cities and allowing one-third of that amount to be in the form of securities, which affect the defeat of several efforts to modify, it was adopted.

GENERAL GREELY RETIRED.

Charles B. Hall Now Becomes a Major-General.

Washington, March 28.—Major-General A. W. Greely, of Arctic fame, having reached the age of sixty-four years yesterday, was transferred to the retired list in accordance with law. He is now traveling in the Orient on leave of absence. Brigadier-General Charles B. Hall, commandant of the general staff college at Fort Leavenworth, Kansas, has been appointed a major-general vice Greely retired, and Colonel John B. Kerr, commanding the Twelfth Cavalry at Fort Ogden, has been promoted.

Senator Penrose Is Now Improving.

Philadelphia, March 28.—Senator Penrose passed a good night, and for the first time since his condition became serious his relatives now express hopes for his recovery.

GLACIA CALLA.

Back in Portsmouth Ready For Concert Tour.

Portsmouth, N. H., March 28.—Mrs. Glacia Calla Roy, whose husband, Paul E. Roy, shot and killed her brother, A. Perkins at the seaside, Newington, on the night of Jan. 2, has returned from New York, where she went to conclude arrangements for her appearance in a ten-weeks' concert tour.

Mrs. Roy says that her visit is for a double purpose: to see her mother, who has been confined to bed, and to pack the wardrobe needed in her forthcoming engagement. When asked whether in her opinion the United States would be able to secure the extradition of Paul E. Roy from France she said:

"I hope so."

"I hope so."

"I hope so."

"I hope so."

"I hope so."

"I hope so."

"I hope so."

"I hope so."

"I hope so."

"I hope so."

"I hope so."

"I hope so."

"I hope so."

"I hope so."

"I hope so."

"I hope so."

A CASE OF DIAPEPSIN WILL CURE YOU OF INDIGESTION

If you ever get a case of the 22 grain Triangles you will see how long you suffered unnecessarily.

Every family here ought to keep a case of Diapepsin in the home, as any one of you may have an attack of indigestion or stomach trouble at any time, day or night.

This harmless preparation is prepared in the form of 22-grain Triangles, and tastes like candy, while you are eating them, but they will digest anything you can eat and overcome a sour stomach five minutes afterwards.

If your meals don't tempt you, or what little you do eat seems to fill you, or it lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your pharmacist for a 50-cent case of Diapepsin and take one Triangle after supper tonight, and see five minutes after how it feels to be rid of stomach trouble.

There will be no sour risings, no belching of undigested food mixed with acid, no explosions of stomach gas, or heartburn, or fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no fermentation of food left over in the stomach to putrefy your breath with nauseous odors.

Ask your pharmacist to show you the formula plainly written on these recent cases, then you will readily understand why stomach trouble or indigestion must vanish like snow before the blazing sun.

Diapepsin is a certain cure for all your stomach misery. Each Triangle contains just the elements which, strong, healthy stomach has, and is proven by test to digest alone 10 grains of food. Diapepsin will hold of your food and digest it just the same as if your stomach was there.

Actual, prompt relief for all your stomach misery is at your pharmacist, waiting for you whenever you decide you would rather have a healthy stomach and perfect digestive system.

A 50-cent case is usually more than sufficient to cure a case of dyspepsia and leave some around the house should other ones of the family need some and safe treatment after eating something that doesn't agree with them.

MRS. SAGE GIVES GIRLS THEIR HOME.

Rich Woman Moved By The Letter of Two Little Sag Harbor Children.

New York, March 28.—Mrs. Russell Sage doesn't see 1,000th part of her correspondence, a large proportion of which consists of begging letters, but her secretary passed along for her personal inspection a letter sent by two little Sag Harbor girls.

While Mrs. Sage did not grant their request, she sent word that she would give the girls that which they sought to buy from her—their home. Their delight when the news was carried to them knew no bounds.

Agents of Mrs. Sage had instructions to purchase as much as possible of the property immediately surrounding her ancestral home in Sag Harbor, which she is having remodelled and refitted for occupancy this spring and which is to be her future home. Price was no special object and several purchases have been made at fancy figures.

Among those who owned property near Mrs. Sage's estate was William Moynan, an employe of the Fabyas watchcase factory. Moynan and all his family loved their home, but the prices offered were too attractive to refuse, and Mrs. Sage became its possessor. When they learned that their home had actually been sold, the little girls in the Moynan family cried. They wrote a letter to Mrs. Sage telling her that they loved their home and asking her if she would not sell it to their father, whom they would persuade to remove it to another site.

That was the request that the wealthy woman could consider favorably, and she expressed delight in being able not only to restore the home to the family that loved it, but give it outright to the girls.

A HUGHES ENDORSEMENT.

Furnished By Albany Republicans Last Night.

Albany, N. Y., March 27.—Charles E. Hughes was formally endorsed last night for the nomination for president of the United States on the Republican ticket by Republicans and independent voters of Albany and vicinity at a largely attended meeting under the auspices of the State League of the United States at which Gov. Stewart L. Woodford of Brooklyn, president of the league, was the principal speaker.

A resolution offered by Randall J. Le Boeuf, was adopted commending the administration of President Roosevelt and declaring that New York "as in Charles Evans Hughes a standard bearer in the mould of Lincoln, who commands the respect of the voters of the whole country."

The resolution in conclusion says: "Resolved, That we favor the sending of a delegation by New York state pledged to vote for and procure by all honorable means, the nomination of Charles E. Hughes for the office of president of the United States until he is either nominated, or directs the withdrawal of his name from the convention and we do hereby pledge our individual efforts to do all in our power to secure from our district and state conventions the adoption of resolutions so instructing Gov. Hughes."

NEGROES PRAISE FORAKER.

Also Commend Gov. Hughes and Want to Send a Delegate to Chicago.

New York, March 27.—At a large gathering last night of colored Republicans presided over by Bishop Alexander Walters, president of the National Afro-American council, Senator Foraker was loudly acclaimed for his stand in connection with the discharge of the negro troops at Brownsville, Texas.

The course of the President and Secretary Taft in the same matter was sharply criticized in the speeches of the resolutions adopted at the meeting demanded adequate negro representation in the national Republican convention and announced the candidacy of Gilchrist Stewart for a delegate.

The resolutions also commended Governor Hughes; praised Senator Joseph B. Foraker for the brave stand he has taken in the defense of the dismissed soldiers; and declared that the authors would be satisfied with nothing less than that the restoration to rank of the discharged troops.

Governor Hughes sent a letter of regret at his inability to attend the meeting in which he said that he was interested in all that pertained to the welfare of negro citizens.

RUEF IS ONCE MORE INDICTED.

He and Two Others Are Charged With Bribery.

San Francisco, March 28.—Three indictments, each containing three counts, against Patrick Calhoun, president of the United Railways; T. J. Fox, general counsel for the same corporation; and Abraham Ruef, former political boss in San Francisco, were voted by the grand jury, were filed with Presiding Judge Sturtevant, Thursday.

The indictments charge Calhoun, Fox and Ruef each with having offered a bribe of \$40,000 on May 10, 1907, to Supervisors F. P. Nicholas, John J. Felt and D. G. Coleman in connection with the granting of a franchise giving the United Railways the right to convert its cable lines into a trolley system. The new indictments were returned with a view of meeting every possible technical objection that had been raised by the defense to the indictments returned by the former grand jury.
